

RAHANYAS

Web Developer

rahanyas3@gmail.com • +91 7907403835 • [Linkedin](#) • [Github](#) • Kerala, India

PROFESSIONAL SUMMARY

Full-stack developer skilled in the MERN stack, MongoDB, Express.js, React.js, and Node.js, with hands-on experience building and deploying real-time and e-commerce web applications during a 6-month industry internship. Combines technical expertise with a Bachelor of Business Administration, with a strong understanding of business workflows, user needs, and product thinking that complements technical development. Comfortable across the full stack, from REST API design and database modeling to authentication, real-time features, and cloud deployment. Passionate about building scalable, user-focused applications and continuously improving technical skills through hands-on learning and real-world projects.

TECHNICAL SKILLS

- **Languages:** JavaScript ES6+, TypeScript, HTML5, CSS3
- **Backend:** Node.js, Express.js, REST APIs, Socket.io
- **Tools:** Git & GitHub
- **Frontend:** React.js, Redux, Tailwind CSS, Bootstrap, SCSS
- **Cloud & Deployment:** AWS EC2, Vercel, Render, Cloudinary
- **Database:** MongoDB
- **Auth & Security:** JWT, OAuth

PROJECTS

E-Commerce Web Application | *Node.js, Express, MongoDB, JWT, Stripe, AWS EC2*

Built a full-stack e-commerce platform with product listings, cart, and order management, using Node.js, Express, and MongoDB for the backend.

Implemented secure user authentication using JWT and integrated the Stripe payment gateway for end-to-end checkout. Deployed and configured the application on an AWS EC2 instance, handling server setup and environment configuration.

Real-Time Chat Application | *React, Redux, Node.js, Express, MongoDB, Socket.io, OAuth, JWT*

Developed a real-time messaging application with a React + Redux frontend and a Node.js/Express/MongoDB backend. Integrated Socket.io for real-time, bidirectional communication between users, and OAuth with JWT for secure authentication.

Deployed the frontend on Vercel and backend on Render, managing environment configs across separate hosting platforms.

INTERNSHIP

MERN Stack Developer Intern | *MakBig* | 2025 – 2026

- Completed a 6-month MERN stack training program followed by a 6-month development internship.
- Worked on production-style projects covering authentication, payment integration, real-time communication, and cloud deployment.

EDUCATION

Bachelor of Business Administration (BBA) / Jamia Hamdard, Kannur / 2021 - 2024
